

Steps to make a Peanut Butter-Jelly Sandwich

Requirements :

- A jar of peanut butter
- A jar of jelly (any flavour)
- Bread slices - 2 (preferably whole wheat)
- 2 Plates
- Butter knife
- Napkins

Steps:

Place two slices of bread, side-by-side on your plate and follow the given steps.

- **Step 1: Jelly**
 1. Dip the butter knife in the jelly and take a scoop out on one of the bread slices.
 2. Repeat step 1 until a sufficient amount of jelly has been transferred onto the bread.
 3. Spread the jelly on the bread thoroughly, including the corners.
 4. When the slice of bread has been covered fully, wipe the knife using the napkin.
- **Step 2: Peanut Butter**
 1. Dip the clean knife into the peanut butter and get a good scoop out on the clean slice of bread.
 2. Since peanut butter sticks better to the knife, one generous scoop is plenty for a sandwich.
 3. However, step 1 can be repeated based on personal preference.
 4. Transfer the peanut butter to the bread slice and start spreading it all over the slice.
 5. Make sure the whole slice is covered, including the corners.
- **Step 3: Assembly**
 1. Before assembling the components together, check both the slices.
 2. If any slice seems to lack its condiment, feel free to wipe the knife and dip it back in the peanut butter or jelly to spread it on their respective slice.

3. If any slice seems to have an excess of its condiment, wipe your knife with the napkin and scrape some of the peanut butter or jelly off their respective slice and discard it back into the napkin.
4. Once both the slices look perfect, pick each slice from underneath so as to not get any of the peanut butter or jelly on the hands.
5. Bring both the slices together such that the peanut butter and jelly sides of the bread face each other and press them together firmly.
6. Make sure the corners are aligned.

- **Step 4: Cutting (Optional)**

1. Wipe your knife with the napkin.
2. This step has creative freedom and hence you can cut the slices and crusts in the desired way to serve.

After following the above steps carefully, one serving of peanut butter-jelly sandwich will be ready to be served. Place the completed sandwich on the serving plate and enjoy.

Allergy alert:

In presence of a person with a nut allergy, use separate knives for jelly and peanut butter to avoid cross-contamination.
